● ABOUT ME

Full-stack developer with 3+ years of specialized experience building high-performance e-commerce platforms and CRM systems. Successfully architected scalable solutions that integrated multiple payment gateways and real-time communication features, serving thousands of users. Expert in Next.js, React, Node.js ecosystems with a proven track record of reducing load times by 40% and improving user engagement. Known for translating complex business requirements into elegant technical solutions while leading development teams to consistent on-time delivery.

● WORK EXPERIENCE

24/05/2024 – CURRENT Tullamarine vic 3043, Australia

SOFTWARE DEVELOPER (PART TIME) EVERTALE PTY LTD.

Led development of a comprehensive clothing retail platform while architecting scalable solutions and managing cross-functional teams.

Key Contributions:

- Architected and delivered a high-performance e-commerce platform using Next.js, improving user engagement by 30%
- Integrated multiple payment gateways (PayPal, ANZ Worldline, Google Pay) with secure transaction processing
- Implemented MongoDB and Redis data solutions to support thousands of concurrent users and real-time inventory updates
- Developed real-time communication features using Socket.io for enhanced customer support
- Established efficient development workflows that reduced deployment times and improved code quality
- Maintained robust security protocols to protect sensitive customer data and ensure PCI compliance

14/08/2023 – 01/04/2025 Dhaka, Bangladesh

SENIOR SOFTWARE DEVELOPER NETCODEN INC.

Architected and developed scalable CRM solutions for the financial sector, specializing in Forex operations with real-time data integration and advanced analytics capabilities.

Key Contributions:

- Designed and implemented a comprehensive Forex CRM platform that increased client operational efficiency by 35%
- Developed intuitive user interfaces that reduced training time by 40% and improved staff productivity
- Integrated real-time market data analytics, enabling data-driven decision making for clients
- Created a robust security architecture ensuring compliance with international financial regulations
- Built a flexible data model using MongoDB and MySQL that accommodated diverse client requirements
- Implemented real-time communication features using Socket.io for enhanced client-trader interactions
- Utilized React, Next.js and Vue.js to create responsive front-end experiences across desktop and mobile devices

01/06/2021 – 31/07/2023 Dhaka, Bangladesh

FULL-STACK DEVELOPER ICHCHAPURON LTD.

Led development teams in creating responsive e-commerce platforms for the book retail sector, focusing on seamless payment integration and secure authentication systems.

Key Contributions:

- Directed multiple development teams that delivered 5 e-commerce projects with 100% on-time completion rate
- Engineered custom e-commerce solutions that increased conversion rates by 25% for online book retailers
- Implemented local payment gateway integrations that expanded customer payment options by 40%
- Developed mobile-first responsive interfaces that improved mobile traffic engagement by 35%
- Built secure authentication systems with multi-factor options, reducing security incidents to zero
- Created real-time inventory and notification systems using Socket.io, enhancing customer engagement
- Established efficient development workflows and CI/CD pipelines that reduced deployment time by 45%

● HOBBIES AND INTERESTS

Professional Development & Community Engagement

- Technical Writing: Author developer-focused articles on Next.js, payment integrations, and authentication systems
- Open Source: Contribute to community projects focusing on React component libraries and Node.js utilities
- Knowledge Sharing: Mentor junior developers and participate in local tech meetups to foster community growth
- Continuous Learning: Regularly complete courses on emerging technologies and solve algorithmic challenges to maintain sharp technical skills

Link <https://abdurrakibrony.vercel.app/blog>

● DIGITAL SKILLS

Frontend

JavaScript | React/Next.js | Vue.js (2 & 3) | VueJS/Vuex/Vuetify | Tailwind Css | Styled component | React-Query | React Redux | Zustand | Context API

Backend

Adonisjs | NodeJS (TS & JS) | Web API (REST/GraphQL)

Databases

SQL | MySQL, SQL, SQLite, PostgreSQL | Mongoddb / Mongoose

Tools

Git | Github | Postman | Socket.io(server-client) | WebSockets | CI /CD | Atlassian stack (Jira, Confluence, ...) | Microsoft Office (Excel incl. VBA, PowerPoint, Word, Outlook, Teams, OneNote)

● MANAGEMENT AND LEADERSHIP SKILLS

Project Management, team lead, etc.

Led multiple development teams across e-commerce and financial services projects, consistently delivering solutions on time and to specification. Skilled in agile project management methodologies, effectively prioritizing tasks and allocating resources for optimal team performance. Proven ability to bridge technical and business requirements, communicating complex concepts to stakeholders and translating business needs into technical solutions. Mentored junior developers and established efficient development workflows that improved productivity and code quality.
